Pavements for High Traffic Roads
Ward 6 and Ward 14**Request:**

- **That Bogey Boulevard be upgraded to have raised and surfaced pavements that creates a safe pedestrian walkway.**
- **That Sleigh Street and Sunbird Street get surfaced walkways on the pavements.**

Motivation:

- Bogey Boulevard does not have raised pavement sides resulting in vehicles often using the pavement as part of the road. This creates very dangerous situation for pedestrians.
- Sleigh Street has very wide pavement areas, but not suitable walkways. Result is that pedestrians walk in the street, which is designated for vehicles. This is dangerous especially with the high volume of traffic on this street.
- Sunbird Street has areas with unsurfaced pavements which are difficult to impossible to pedestrian use as well as areas with very narrow pavements. This is dangerous especially with the high volume of traffic on this street.
- Langebaan is a tourist destination and should have proper and safe walkways on all high-volume roads.
